## **PLOT**

*Following in the footsteps of his father, Achille Franzi is the pastry chef. As a child he spent his days in the bakery of his father, whose advice represented a real guide for interpreting life, almost a gospel. Now that he is adult, Achille lives his work as a mission, to make people happy through the perfection of sweets.*

*But one day the chance, or perhaps destiny, takes him away from the routine full of delicious creams and yeast, sugar and cream puffs. Despite himself, he begins a journey that will change his life. To survive, Achille will face dangerous tests, both escorted and hampered by a femme fatale, a shyster and a foul scrupulous cop. As the journey proceeds, Achilles will tell us his story, his past: a paradise of pastel colors, scents, flavors and secret recipes.*
